Kaura explained that, "The accident occurred at about 8:30am on Monday. The trailer was descending a slope at high speed when the driver lost control and rammed into the Sharon bus from behind, causing it to somersault."

The sector commander cautioned motorists against speeding, especially on roads with difficult terrain such as slopes, stressing the need for drivers to maintain controllable speed at all times.

He also advised road users to ensure proper vehicle checks before embarking on journeys, particularly during the ongoing yuletide, to prevent avoidable accidents and loss of lives.
