

Family of six die in Rivers

From Mike Odiegwu, Port Harcourt

A FAMILY of six comprising father, mother and children has been reported dead in Ogale community, Eleme, Rivers State.

It was gathered that the entire family members slept on Saturday night but could not wake up on Sunday morning.

Sources said they had concluded a plan to return to Port Harcourt after the holiday before the incident.

The real cause of death could not be ascertained as nobody could give tangible reasons for the unfortunate incident.

The incident was first reported by a Facebook user, Destiny John, who wrote: "A black Sunday indeed six died on the spot. How will I explain to you all that all this family died on a spot in Ogale today. No sickness, Oh God let the wickedness of the wicked come to an end".
