EMMA OGU, *Owerri*

THREE people and a bullion van driver have been shot dead at Achingali Obowo Local Government Area of Imo State by armed robbers who made away with undisclosed amount of money.

The men of the underworld operating in a car last Tuesday were said to have overtaken the bullion van at the spot, blocking the road after a short distance, shooting sporadically.

The police escort of the bullion van reportedly fled into the bush leaving the driver alone.

The robbers fired at the driver, killing him on the spot after which they also shot at a woman and school girl both of who also died on the spot.

It was gathered that the gang carried all the money in the bullion van and sped off.

The two other victims were said to be standing near the scene when the operation was going on.
