

Twins die after being dumped in stream

From Ahmed Mohammed, Jos

A set of twins has been dumped in a stream in West Mines near the Mining Resources Center in Jos.

Our correspondent gathered that the babies who were dumped yesterday were covered with a Napkin, and inside a biscuit carton.

The twins died shortly after the discovery and were buried immediately. Some passersby who spoke to *Daily Trust* condemned the act, calling on the

authorities to look for their mother so that she could be made to face the law.

The Police Divisional Officer in charge of division A in Plateau

State, Mr Daniel Asho directed the Police Juvenile Welfare officers to exhume the bodies of the twins for proper investigation and burial.
