Mutilated corpse found in Kano

News

SUNDAY, 11 APRIL 2010 22:31

An unidentified woman's body with some missing parts was found yesterday in an uncompleted building in Hotoro GRA of Kano metropolis.

Our correspondent gathered that the corpse, which was striped naked, was discovered by some children who were scavenging in the building. There was a smell of decomposing body around the area and witnesses inferred that the woman was killed about three days ago.

"We've been perceiving the smell of decomposing body since morning but we were unable to trace it until when the children alerted us," said a resident, Malam Sale.

When the children raised the alarm, the elders of the neighbourhood gathered around the building to identify the woman but failed.

The Gida Goma community leader, Malam Bala, said it was the first time they witnessed such incident in the area. He said some scavengers alerted them and they called the police to evacuate the body.

Public Relations Officer of Kano Police Command SP Baba Mohammed Azare confirmed the incident, saying the police were trying to get the identity of the dead woman. SP Azare also said the command had already begun investigation into the matter in order to arrest the perpetrators.
