

# Killers of policeman still unknown - PPRO

From Isa Umar Gusau, Maiduguri

**KILLERS** of the mobile policeman, who was shot dead in his house in Maiduguri, last weekend, are still unknown. Speaking yesterday, the Police Public Relations Officer in the state, ASP Isa Azare, said the police command was doing everything possible to track them down.

Our correspondent reports that a witness said the men arrived the residence of Ser-

geant Mohammed Danbajo at about 7.30 pm on Saturday. The witness added that the killers exchanged pleasantries with the cop's 10-year-old son and then asked him to call his father. On sighting the policeman, the three persons fired at him and when residents tried to save him, the assassins scared them off with their guns, he further said.

The police PRO confirmed this account, but said the command was hopeful that the killers would be apprehended very soon.
