# Motorist crushes pedestrian at Kado expressway

By Usman A. Bello

A motorist yesterday knocked down a pedestrian along the Shehu Yar'adua Way Setraco office in Abuja.

The pedestrian, who was identified as Sada Idris, died on the spot and

his corpse was covered with leaves.

A witness, Shuabu Suleiman, said the victim was crossing the expressway when a Honda Accord car with registration number GJ 59 EKY hit him.

"Two of us crossed the road and waited for the

victim to cross, when the Honda car hit him," he said.

Reacting, Assistant Superintendent of Police Yakubu Sunday of Mabushi Police Station blamed the accident on overspeeding and not watching the road properly before crossing.

He said the corpse will be taken to the hospital for record purposes, before handing it over to relations for burial.

One of the sympathizers at the accident scene called on government to construct a pedestrian bridge in the area.
