

# Cultists kill one at Fed Poly Nasarawa

From Hir Joseph, Lafia

GUN wielding cultists Friday night stormed students' private residences in Nasarawa, Nasarawa State, near the Federal Polytechnic, killing one person and injuring another. A few months ago, the polytechnic was shut after waves of violent crises trailing the killing of some students by cultists. The crisis was taken to the boys' hostel where natives were said to have opened fire on students, killing one. On Friday at about 11pm, according to students, the cultists struck in two separate places at the Tammah area of the town. A security officer in the school confirmed that cultists struck on the night of Friday, shooting two. He said one died, while the other was rushed to the hospital where he is still receiving treatment.
