Four persons were shot dead yesterday by gunmen along the Eastern-Bypass area of Marine Base in Port Harcourt.

This came after five others were killed on Saturday night near a popular hotel in Oroworukwo community in the state capital.

Witnesses said the gunmen suspected to be members of a cult group, stormed a restaurant close to the bridge along the road and shot the men while wounding several others. A source said policemen took away the bodies after the gunmen escaped.

In a related development, a woman was kidnapped yesterday afternoon from Echue Street, Mile 2, Diobu, also in Port Harcourt by unidentified armed men.

A witness told our correspondent that the unidentified woman was leaving a church when she was seized with her jeep.

According to the witness, the gunmen escaped through Echue waterfront into the creeks with the woman in a speed boat after police chased them and they abandoned the car.
