Man dies after falling from 3-storey building

By Emma Elekwa

A construction worker was reported dead on Sunday morning after he fell from the top floor of a 3-storey building in Phase 4, Kubwa, Bwari Area Council of the FCT.

City News learnt that the deceased reported at the site, as usual, around 8:30a.m. on the fateful day and climbed the third floor where he was working before the incident happened.

An eyewitness said the deceased, supported by a scaffold on the last floor of the building, was working with the crane when his leg suddenly slipped and fell.

The witness said that the deceased landed with his head on top of a machine close to the building and sustained serious injuries on his head and some parts of his body.

City News gathered that he was rushed to the Kubwa General Hospital where he was declared died.

The head, accident and emergency unit of the hospital, Paul Olise, has confirmed the incident.
