An 18-year-old security guard was electrocuted while trying to remove an antenna pole that fell on a lower high tension cable in Phase 2, Area 1 of Kubwa in the Federal Capital Territory (FCT).

City News gathered that the deceased, identified as Isaiah Bello, had climbed the pole to remove the antenna with a ladder as soon as he woke up early morning on Sunday when he was suddenly electrocuted.

According to the source, it was one of the residents of the compound, identified as Monday, who had earlier tried to rescue the deceased by pouring water on him, that alerted the police who arrived the scene and removed the body.

City News learnt that part of the body of the deceased was burnt by the electric shock.

Confirming the incident, the Kubwa Divisional Police Officer, Chief Superintendent Nurrudeen Sabo, said the corpse is presently at the mortuary for preservation and autopsy, adding that the death is being investigated.
