Ritualists kill pregnant woman, 12-year-old accomplice

From Romoke W. Ahmad, Ilorin

A pregnant woman was brutally murdered and dismembered by some suspected ritualists at Gboroko village via Alapa in Asa Local Government Area of Kwara State on Saturday.

It was gathered that the incident happened around 4:30pm when the woman,

Roheemat Akata, alongside a 12-year-old daughter of her neighbour, was going for business transaction to the next village.

It was gathered that the deceased, a popular patent medicine seller in the area, was waylaid, murdered, her body dismembered, and her eight-month foetus removed.

A reliable source who declined to mention her name, said a 12-year-old daughter of her neighbour who accompanied her to the village was also slaughtered on the same spot.

The source disclosed that the case had been reported at Alapa Divisional Headquarters for further investigation.
