MAMBILLA GENOCIDE AGAINST THE FULANI WHO IS THE REAL LIAR?

The Miyetti Allah Cattle Breeders Association of Nigeria (MACBAN), Taraba State Chapter wishes to draw the attention of the general public to the statement by the Taraba State government that the Emir of Kano, HRH Muhammad Sanusi II told a "lie" when he mentioned in an interview with The Punch that he personally handed over a list of about 800 people killed on the Mambilla Plateau during the June, 2017 genocide.

This denial by the Taraba State Government was immediately supported by the Christian Association of Nigeria (CAN) Taraba State Chapter who gave a figure of 18 Fulanis killed.

This is unfortunate because it appears the government did not bother to compile a list of the victims up till now.

For the avoidance of doubt, we hereby

publish below the actual list of 728 Fulanis killed during the unprovoked, premeditated and barbaric genocide in June 2017.

If you add many more missing and unaccountable people to the actual figure of 728 killed, you cannot fault his royal highness the Emir of Kano as it could be more than 1000 people killed. Sporadic killings are still going on while occupation of Fulani lands and killing of their cows as well as the destruction of their property has not stopped.

At any rate, the public can decide who is lying between Emir Sanusi II, the Taraba State Government and Taraba State CAN.

It is very sad that the Taraba State Government which was elected to protect the lives and property of its citizens has become a willing collaborator in the annihilation of the Fulani in its territory, the Taraba State.

We call on all Nigerians, to objectively analyze the situation of the Fulanis who have been dehumanized, criminalized, maligned and targeted for killings for so many years. Yet they are stigmatized as 'Fulani terrorists' Fulani jihadists' 'Fulani Killers', etc.

If in just one local government area in this country 800 Fulanis could be slaughtered in cold blood and no action taken by the government, then it is left for any objective observer to determine who the REAL victims of these massacres are!

We strongly believe that the Federal Government has a duty to verify these figures and arrive at an official figure.

Below is the list (names and areas) of those killed in the June 2017 genocide on the Mambilla Plateau.
