Two days after the collapse of a three- storey building at Ilasamaja area of Lagos state, another body has been discovered.

The State Emergency Management Agency (LASEMA) General Manager, Mr. Adesina Tihamiyu confirmed that the body was discovered Saturday night under the debris during the post disaster clearing of the site of the collapsed building.

The latest discovery brings the casualty rate to four persons, while those rescued alive remain 19 persons. All the victims are male.

“The body who is yet to be identified has since been deposited by the State Environmental Health Monitoring Unit SEHMU at the Mainland Hospital Mortuary”, he added.

The General Manager said the Agency will also carry out clean up of the site as soon as the site is completely recovered at ground Zero to forestall public health issue in the area.
