An eyewitness said: “It happened when the iron ladder they were using came in contact with a high tension wire. The victims were peeling off the stickers on the tiles of the wall of the bank when the iron ladder came in contact with a high tension wire, and they all fell to the ground.” He said security agencies had visited the newly constructed bank premises where the two corpses were evacuated and the third victim conveyed to the hospital.

The spokesman of the state police comand, DSP Tyopev Terna, did not respond to calls and a text message to his phone, but a brother of one of the deceased, Ibrahim Ahmed, his brother, a labourer, died in the incident.
