

School speaks on death of 14-year-old student

By Chris Agabi

The management of Premiere Academy Lugbe, Abuja, has expressed readiness to support full police investigation to unravel the circumstances that led to the death of one its students, Miss Keren-Happuch Akpagher.

The late Keren, a 14-year-old SSS I student of the school, died on Tuesday in Queens Clinic Wuse, Zone 6, Abuja, in questionable circumstances that have brought both the school and the

hospital under scrutiny.

The news of the death had gone viral when the hospital claimed that a certain lad discovered a decayed condom and dead spermatozoa in the deceased's private part.

The Acting Principal, Mr. Chris Akinsowon, told the media at the weekend that the school management had provided the police with findings from their preliminary investigations.

He added that the police had full access to all the resources they need to carry out their investigations.
