Okada rider hacked to death in Kwara

From Mumini AbdulKareem, Ilorin

A commercial motorcyclist, Bayo Ayelomo, has been killed in Oke Onigbin, Ifelodun Local Government Area of Kwara State.

It was gathered that late Bayo took a passenger to Owode Onire when he was hacked to death with cutlass on his way home around 8pm on Monday along Owode Road.

The incident, however, sparked a protest on Tuesday by the angry youths of Oke-Onigbin who blocked the road leading to the local government secretariat.

Many road users and travellers avoided the route for fear of being attacked by the protesting youths.
