Tina Thompson, a two-year-old girl who was last week declared missing on Arab Road in Kubwa, a satellite town in Bwari Area Council of the FCT, has been found dead in Zuba in on a refuse dump around the motor spare parts market.

He said, "After the news of my daughter's disappearance went viral last week, we intensified the search. I was shocked when one of my relatives in Zuba called, saying

my daughter had been found dead on a refuse dump close to the spare parts market.

"I rushed there to confirm and behold I saw my daughter wrapped in a sack. Who did I offend? I mind my business. Indeed, we are in a wicked world. We need to be security conscious."

Recall that City & Crime reported how the late Tina's parents cried out to the authorities in Abuja to help recover their daughter.
