Bandits kill 1, abduct 5 in Kaduna

From Mohammed Ibrahim Yaba, Kaduna

Suspected bandits have killed one person and abducted five others at Maraban Kajuru in Kajuru Local Government Area of Kaduna State.

According to a local source and community leader, who requested anonymity, the incident occurred around 1am on Saturday.

The source said the deceased was visiting the village for a relative's burial when the bandits stormed the community and killed him.

Daily Trust further gathered that two other villagers were critically injured as the attackers whisked away their victims into the bush.

"It was a sad development because the victim killed was only visiting the community for his relative's burial when the bandits attacked. Two other people were critically injured and five others abducted," he said.

The state government and police command have yet to issue official statements on the attack.
