The Lakurawa terrorist group reportedly killed two customs officers and a resident on Tuesday

The latest attack on security personnel and civilians in the area occurred after combined

security forces neutralised two Lakurawa members last week.

Confirming the incident, the public relations officer of the Kebbi State Police Command, Nafiu

Abubakar, said while the attack had taken place, he had yet to verify which customs unit the slain officers belonged to.

"Yes, there was an attack that resulted in the killing of two yet-to-

be-identified customs officers and one resident of Bachaka," he said.

He added that the Commissioner of Police, Sani Bello, had visited the incident scene and reaffirmed that security

forces would not be deterred by the attacks.

According to him, the assaults indicate that the terrorists are weakening under the sustained military onslaught aimed at eliminating them.
