19 Year-Old Girl Found Dead At Dumpsite In Calabar

From Anietie Akpan, Calabar

A YOUNG girl of about 19 was found dead in a sack bag at Lemna dumpsite in Calabar. The incident brings to three the number of women that have been found dead in a suspicious circumstance by the roadside or a dumpsite recently. The girl who dressed in a pair of black jeans trousers and a white top was found dead on Tuesday evening with her arms and legs tied inside a big bag and dumped at the dumpsite. Her personal items like clothing (bump shorts and trousers), make-up kits and comb were also found stuffed inside the bag.

Details about the girl were not known as at press time but the Senior Special Assistant to the Governor on Environment, Joe Obi-Bissong yesterday said the dead body of the girl was found by scavengers who drew his attention and that of his men to it as the bulldozer was about to push the heavy refuse at the site further.
