A physically challenged man, whose identity could not be ascertained, was yesterday crushed to death in an accident involving a Toyota Highlander SUV and Toyota Corolla saloon car at the Government Reservation Area (GRA) in Benin City.

The accident, which occurred at Boundary Road in the GRA during the early hours of yesterday, left a cripple begging for alms on the road dead at the scene of the accident.

Sources at the scene said the drivers of the two vehicles were on top speed while approaching a junction, lost control and crushed the cripple begging for alms by the roadside.

The incident led to traffic gridlock on the road for many hours as motorists and other road users lamented the sudden death of the helpless cripple.
