Palpable tension is brewing in Owerri, capital city of Imo State, over reports of the drowning to death on Wednesday of a final year student of Metallurgical Engineering at Federal University of Technology, Owerri (FUTO) at Otammiri River.. The student's name was given as Ukachukwu Igboabusia.

According to the report, the deceased had gone to swim with his two friends before he met his death. The authorities of the institution were yet to authenticate the story as at press time.
