

Boat Mishap Kills One In Andoni River

By Ubokikwan Gabriel
REPORTER, Port Harcourt

It was a sad moment in Ajakajak community, Andoni Local Government Area, Rivers State, at the weekend when a commercial speedboat driver lost control of his boat and died in the creek.

Eye witness narrated that the boat driver, simply called Moses, was driving across the shallow creek that separates Ajakajak from Kaa in Khana Local Government Area around 6:00 am, when the accident occurred.

The driver was said to be over speeding.

Sources told *Daily Independent* that as he drove close to the waterside, his outboard engine suddenly developed mechanical fault, which made it impossible for him to control the boat and eventually ran into the landing jetty at Kaa water front.
