German doctor killed in Lagos

By Femi Ogbonnikan
Correspondent, Lagos

MEN of the underworld have killed a German-born medical doctor, Michael Shubert, in his Lagos residence.

It was learnt that the deceased was an employee of Lagos Clinic, 14 Bombay Crescent, Apapa.

The victim, who lived on the same street where the hospital is situated, was said to have been stabbed to death by the hoodlums.

It was further gathered that the hoodlums in an attempt to gain entry, broke into the compound of the deceased, tied up the security men before heading to his apartment.

"On February 9, 2011, at midnight, at about 1.00 a.m., hoodlums numbering about four or five, broke into the house of the deceased.

"We don't know if it was an assassination or a robbery incident but the men scattered his residence and stabbed him in the neck even though they had guns.

"Although they came in through the door, they escaped through the ceiling. The deceased gave up the ghost almost immediately as he had lost too much blood," said a source.

Lagos State Police Public Relations Officer, Joseph Jaiyeoba, confirmed the incident.
