Hoodlums attack vigilante leader, kill motocyclist in Delta

By Emma Arubi

Senior Correspondent, Warri

BARELY two days after the gruesome murder of a popular vigilante leader, Mr. Kpufman, in Warri, his next in command, Mr. Peter Akporido is now lying in critical condition at the Sage Clinic following attack by some youths caught burgling the shop of a trader in the night.

Similarly, unknown robbers on Wednesday at the Bazunu road area of Warri killed a tricycle rider and made away with his motorcycle forcing traders along the road to close shop for almost half of the day before police-

men from the "A" Division came to remove the corpse.

This happened as yet another group of miscreants stabbed one Zion Amagbo in the process of their stealing escapade.

The vigilante leader was said to have apprehended the thief while breaking into somebody's lock-up store around the Igbudu market axis of the commercial city, but unknowing to him the hoodlum was wielding a jack knife with which he stabbed Akporido in the stomach.

The thief took to his heels before help could come the way of the

vigilante leader who was then rushed to the nearby clinic where he is currently receiving treatment.

Youths in the area however told Daily Independent that they know the boy and are on the watch out for him, saying that he has been banished from the area before for stealing.

They appealed for public financial support to assist in the settlement of the medical bills even as hoodlums in that area of Warri are taking advantage of the death of Kpufman and the absence of Akporido to unleash terror on innocent citizens in the commercial city.
