It was gathered that the suspected armed robbers, numbering about four, trailed their victims from one of the new generation banks along the Olu-Obasanjo Road, where they opened fire on them and to also scare passers-by.

It was gathered that the policeman was the assailants' main target, as they first opened fire on him, before killing the driver and their principal.

Sources who witnessed the incident narrated that the victims rode in a Toyota Thundra

Jeep, adding that their escort was a mobile policeman.

The eyewitness stated that the four armed robbers drove a Toyota Camry car, but because of the busy traffic, they parked few metres away from the head-office of the Rivers Transport Company (RTC) and trekked towards their targets.

There is fear in Port Harcourt now owing to the rising cases of robbery.
