

Tension In Anambra Community As Man, 73, Is Beheaded In His Farm

By **Chukwujekwu Ilozue** - May 18, 2018

Anambra Deputy Governor, Dr. Nkem Okeke

AWKA – Tension is brewing among Idemili and Oyi councils communities of Anambra State after unknown persons beheaded Mr. Obidiah Nwanegbo Eliaku, a 73-year-old man of Akuzor from Idemili North Local Government Area of Anambra State, in his farm.

The deceased body was found in the farm without his head and people blamed this on the boundary dispute between Akuzor and Oze village in Nkwelle-Ezunaka in Oyi Local Government Area of the state.

Consequently, S.O. Chukwukelu, the lawyer to the Akuzor village, has petitioned the Inspector - General of Police and the state Commissioner of Police to investigate the matter.

It would be recalled that before now, Dr. Nkem Okeke, the Deputy Governor of Anambra State, who is the chairman of the state Boundary Adjustment Committee, had settled the matter between the two villages, where he directed the secretary to send letters to the warring parties, but it was learnt that this had not been done.

Chukwukelu's petition which was copied to the Attorney General of the state, the Surveyor General of the state, the Secretary of the Boundary Committee, among others, and made available to reporters Thursday in Awka, was entitled, "Urgent need for a written communication to be made to the concerned communities and security agencies over your decision of 18th July, 2017 with respect to the boundary dispute between Akuzor village, Nkpor in Idemili North LGA and Oze village, Nkwelle-Ezunaka in Oyi LGA of Anambra State and also need for the said decision to be gazetted as a matter of urgency."

Chukwukelu lamented that despite the petition, some miscreants, mischief-makers and unscrupulous members of some of the communities involved still went about in total disobedience to your lawful order and decision.

"They continue to mislead the public and security agencies with the previous belated letter which was mistakenly written by the secretary of the Committee to the Communities concerned over the matter.

"We want you to use your good offices to caution people to desist forthwith from acts that will likely cause breach of peace and threat to security of Anambra State."

He called for another letter that would reflect current true position of things as highlighted above to the concerned communities and security agencies to prevent the probable consequences of the former letter which was nothing but the reintroduction of the long forgotten principle of state of anarchy and survival of the fittest in the state.
