

# Four-Year-Old Girl Killed By Rain Storm In Bauchi

By **Patience Ogbodo - Iwuagwu** - May 21, 2018

*Governor Muhammad Badaru Abubakar*

**Bauchi** – A four-year-old girl in Mararrabar Liman Katagum village of Bauchi Local Government Area was killed following a rain storm that wreaked havoc in the area.

The storm also destroyed property worth millions of Naira in the community.

Speaking on the incident, the village head of Mararrabar Liman Katagum, Malam Abdullahi Isa, described the incident as a calamity that damaged many houses and forced traders to abandon their properties to run for safety.

Malam Isa disclosed that about 400 houses were affected while an unquantifiable number of properties including domestic animals were lost to the storm.

He called on Governor Muhammad Abubakar to send officials from the State Emergency Management Agency to assess the damage to pave way for government's support to the affected people.

Also speaking, the chairman of Mararrabar Liman Katagum Community Development Association, Malam Aliko Musa Umar, expressed concern that children in the area will have to abandon their school following the destruction of the Junior Secondary School of the area by the storm.

He appealed to voluntary organisations to come to their aid in order to save the affected residents from their present condition.
