

Hit And Run Truck Driver Crushes Own Conductor

BY MATTHEW DIKE, Lagos

A hit and run truck driver has crushed his conductor in Tin-Can Island, Apapa area of Lagos State.

The conductor was said to have while on duty, stopped at the Apapa-Tolu-Olodi-Apapa lagoon to ease himself at about 8pm, Tuesday, and was returning to the truck parked at the Apapa-Oshodi expressway, Tin-Can, when the driver allegedly sped off and crushed him in the process.

The driver was said to have zoomed off after the incident and a man who witnessed the incident alerted the Area 'B' Commander, ACP Muhammed Ali, who placed all divisional police officers under his command on alert to ensure that the said truck did not escape from their divisions.

A police source said policemen were also deployed to the scene but some truck drivers and conductors protested that the corpse should not be removed but it later was.
