### Mother, 36, Electrocuted

Tragedy struck at Eweka Street off Power Line in Benin City, the Edo State capital, following the electrocution of a 36-year-old wom- an, Mrs Omoeme Omoruyi, at her resi- dent while urinating near TV pole anten- na behind her resi- dence.

Residents of the area who alleged the authorities of the Benin Electricity Distribution Company, (BEDC) of carelessness and negligence on their part said in the past few weeks they had complained to the electricity authorities over electric shock within the residence even when there was no light but that their complaint fell on deaf ears which they alleged led to the death of late Omoruyi.
