

Body Of Woman Killed In Gombe Recovered

ALI MAHA, Gombe

Gombe State Police Command has confirmed the killing of a young woman by unknown persons at a hotel, Primary Guest Inn, located at Sabon-Layi area of Gombe metropolis.

State Police public relations officer, DSP Fwaje Atajiri confirmed this to newsmen yesterday. He said, the woman's corpse was picked from the hotel at around 8:30am last Thursday.

"The woman was found dead, without wounds or cuts on any part of her body. We took snap-

shots of her body and the corpse has been taken to the hospital for experts to conduct a post mortem on her to ascertain what caused her death," he explained.

Atajiri said a team of policemen has been deployed to investigate the matter and unravel the cause of the young woman's death. He further said, no part of the deceased's body was severed as claimed in some quarters.

"Some people are just insinuating that vital parts of the woman's body were cut off. That

is not true. No part of her body was severed. No mark or any sign of struggle on her. We are liaising with medical experts to really know what killed her," Atajiri confirmed.

The PPRO said, Sabon-Layi area was a notorious place and known as a hide out for criminals where you can hardly differentiate residential houses from hotels.

He advised the public to assist the Police in their investigation and report any suspicious movements or persons around them to security agents.
