One of the victims, Mr. Akpoveta Justice, told our correspondent, "I boarded a Jetta car from the Anbraka market. After the Double Delight Fast Food, a Toyota Hilux was coming from the opposite direction, I noticed he was about overtaking a Jeep, but there was not enough space for the Hilux to balance itself so it was unable to return because the Jeep was on high speed, and there was no space for him to pass through, and all of a sudden what was heard was a blast, and I saw myself on the ground."

He said further, "To God be the Glory, I am alive though the car parted into two and a Good Samaritan rushed us to the General Hospital in Abraka. The girl on my left hand side died on the spot. Information reaching us is that the driver died two days later.
