BY ACHOR ABIMAJE, Jos

Two people were feared killed in Rarin Sho village of Riyom local government area of Plateau State.

LEADERSHIP investigation revealed that the village head of Rarin Sho, Ibrahim Boyi and one Pam Dung, a young boy, were killed in the attack.

According to Mark Lipdo, coordinator of Stephanos Foundation, a Jos-based non-governmental organisation, the joint team of police and military forces responsible for defending the area were in the village to evacuate the bodies.

He added that it was sad that evacuating the dead is what the Sho people can only hope to get from the STF which is supposed to defend them.
