Terrorists On Guntrucks, Kill Occupants In Borno

BY TARKAA DAVID, Abuja

Nigeria Air Force (NAF) air-strikes kill several terrorists in four gun trucks in Borno State on November 8 and November 11, 2023.

A statement by the director of Public Relations, Air Cdre Edward Gabkwet, said the two major air strikes were carried out by the Air Component of Operation Hadin Kai.

He said the strikes led to the decimation of several terrorists taking cover at Ajigin and Banki Junction areas located in Borno State.

The director said the air-strikes are part of efforts aimed at clearing the remnant of terrorists causing mayhem and disunity among law-abiding Nigerians.

The statement noted that the airstrikes were conducted on terrorists' enclaves situated 1.9km South of Ajigin on November 8, 2023.

He said the terrorists, who had hidden four gun-trucks under thick shrubs had earlier perfected plans to attack friendly troops' location around Damboa and Wajiroko before the precision strike.
