.....

The Benue Police Command has confirmed the death of a middle aged man who was found dead inside a transformer cage at Kanshio, a suburb of Makurdi, the state capital.

The command's spokesperson, Catherine Anene, yesterday said the man was not a staff member of Jos Electricity Distribution Company (JED).

According to her, the man might have gone into the cage on an alleged suicide mission.

She said the police command was already investigating the circumstances surrounding his death.
