

# Kwara Governor Condemns Katsina Killings

BY ABDULLAHI OLESIN, Ilorin

Kwara State governor Abdulrahman Abdulrazaq has described the terrorist attacks that killed many people, including four police officers, in Kankara local government area of Katsina State as unwarranted.

He said the attack represents the highest level of cruelty and crimes against humanity.

AbdulRazaq said this in a statement signed by his chief press

secretary, Rafiu Ajakaye.

The chairman of Nigeria Governors' Forum (NGF) commiserated with Governor Dikko Umar Radda and the people of Katsina State on the terrorist attacks.

He condemned what he called the cowardly attacks on innocent citizens and security operatives in Kankara.

"We are also alarmed at the audacity with which violent nonstate actors are unleashing

violence on security forces, including military personnel, who put their lives on the line to protect citizens.

"We stand by the government, the security forces, and the good people of Katsina at these trying times. We ask Allah to forgive the victims and comfort their families. We are confident that the security agencies will hunt down the criminals involved in these crimes against humanity," Abdulrazaq stated.
