1 Dead, 2 Injured, Soldier Missing As Boko Haram Attacks Gwoza

BY FRANCIS OKOYE, Maiduguri

② One person has been killed, two others injured, and a Cameroonian soldier under the Multinational Joint Task Force (MNJTF) is missing as Boko Haram terrorists on Tuesday attacked the Kirawa Community of the Gwoza local government area.

* LEADERSHIP reports that the latest attack occurred barely a week ago when the terrorists abducted 15 farmers and killed five other civilians on the Nigerian Independence Day in the Ngoshe community of the same Gwoza local government area.

A source with information about last week's attack in Ngoshe said the terrorists ambushed the farmers while they were busy with their farming activities in the farming community.

"After they took them to their base, the terrorists mercilessly slaughtered the five that were killed but later released three women out of the 15 farmers abducted at Ngoshe.
