By Jude Isiguzo

ONE person was killed and over 20 others injured yesterday in a clash in Isheri-Olofin, a Lagos suburb.

The skirmish, it was gathered, was between land grabbers.

The deceased, Waheed Balogun, son of the Oba of Isheri-Olofin, according to sources, was allegedly killed by a Golf car belonging to one of the land grabbers.

It was learnt that the deceased was on his way to inspect a landed property when the incident happened.

The prince was said to be preparing to proceed to the site on a motor bike when the Golf car allegedly driven by Adio Badmus came from the opposite direction and knocked him down. He died before help could come.

It was gathered that his death sparked crisis as his associates alleged that he was killed by land grabbers who were desperate to take over the property.

Lethal weapons were freely used during the clash, which paralysed early morning activities in the area.

Police spokesperson, Mrs Ngozi Braid said apart from the car driver, no other person has been arrested.

According to her, the driver would be charged to court for manslaughter. Policemen have been deployed in the area to restore peace.
