# Girl found with genitals missing

**T**HE body of a missing girl has been found—without her eyes and genitals.

The Ufomba family and the people of Ohanze community in Obingwa Local Government of Abia State are saddened by the fate that befell Miss Chigozie Ufomba, whose body was found in a bush behind Community Secondary School, Ohanze.

The victim was said to have been abducted with her

**From Sunny Nwankwo,  
Aba**

younger brother, Chidozie, by a woman on Friday. They were on their way to school.

It was gathered that the suspect, who is in police custody with four others, was arrested at the weekend.

This followed a revelation by a pupil, who allegedly saw her with the children.

A source said the suspect allegedly confessed that

Chidozie was sold at Ndiakata Community, seven kilometres from Ohanze where they were said to have been kidnapped.

"Chidozie was rescued alive but his sister was found behind a school with her genitals and eyes removed."

Five persons, including the suspect's husband and a native doctor, are in police custody.

Police spokesman Amaechi Jonathan said he was yet to be briefed on the incident.
