Two feared dead in Lagos airport road crash

Posted by: Tunde in News 2 days ago 5 Comments

TWO persons were feared dead yesterday when two vehicles collided on the Murtala Muhammed International Airport Road.

According to sources around the airport, the accident involved two vehicles at the local wing end of the road.

A source hinted that an oncoming car was said have run into another car parked around the Air Force Base of the link road, about 200 meters to the domestic terminal (MMA2), killing the driver and a passenger.

The two persons were said to have died on the spot because of the speed with which the oncoming car rammed into the stationary vehicle.

The accident caused traffic jam, forcing many to reroute their journey.

The dual carriageway leading in and out of the international terminal were blocked.

Most passengers connecting the international terminal from the Ikeja axis had to divert to other roads to connect the terminal.

It was learnt that the Federal Airports Authority of Nigeria (FAAN) deployed an ambulance to evacuate the victims.

That stretch of road needs to be lighted, the place is always dark.

May the soul of the victims rest in peace. I think it might be as a result of over speeding, and combination of poor visibility.
I hope the Lagos state government will invest on speed camera, to minimize this trend of an events.

They need to start arresting stationary cars or trucks on our roads. Same way Dagrin was killed.
Why should our airport road be dark?
