

GOVERNOR FASHOLA

Save us from cultists

ODOGUNYAN is one of the towns in Lagos State. Most of the people of this town are law-abiding and patriotic.

This locality was peaceful until recently when cultists belonging to different groups started unleashing terror on people.

In the last one month, over 50 innocent people lost their lives in violence caused by the cultists.

The cultists behave as if we do not have a government in the state. Recently they imposed a curfew from 6pm to 6am on the town.

As they commit their atrocities, our policemen are just watching. We do not know the reason or reasons for their lukewarm attitude to these acts of violence.

To save lives and property, I am calling on Governor Babatunde Raji Fashola to come to our aid by flushing out these undesirable elements from our society.

He should quickly act because of the coming general elections which cannot take place in a crisis situation.
