Body found near varsity campus

From David Ugbesia
AAU

RESIDENTS of Ekpoma, the host community of the Ambrose Alli University (AAU), woke up on Monday to see a dead body.

The deceased, a female, was suspected to be student of the institution but nobody could confirm her identity at the time of this report.

The body was found at One-T-Four Junction close to AAU gate. There was no evidence that the deceased was shot but there was speculation that she may have

been strangled and dumped beside the university gate.

There is ongoing cult-related violence in the community, involving students of the school. Scores of students have been killed in the clash.

CAMPUSLIFE gathered that police have begun investigation on the matter. The Dean of Students Affairs could not be reached for comment.
