He said he was annoyed because of the consistent pestering on why he didn't want to join his mates for the age grade initiation ceremony.

According to him, "It was during the celebration of age grade. I didn't know when I beheaded the man. When people came to arrest me that I killed somebody, I said I did not.

"I am an orphan. I didn't want to go to the age grade because I have problem with our village head. One man gave me white Agbada and red cap to wear to the ceremony.

"People were still pestering me to go to age grade initiation. The much talking was annoying me. I don't know what came over me. I dropped the red cap on the ground and I saw myself destroying my property. I was in the church when I saw people running after me that I have killed someone and taken the head away.

I don't have any quarrel with the man. I didn't want to use the man for ritual and no body asked me to bring his head."
