**A**BOUT five soldiers and three policemen were among security operatives killed in an orgy of violence reportedly unleashed in Rivers State by members of the proscribed Indigenous People of Biafra (IPOB), it was gathered at the weekend.

The police had earlier linked IPOB members hiding under the #EndSARS protest to the attacks and destruction of the Police Area Command and police stations at Oyigbo Local Government Area of the state.

The attackers reportedly killed three policemen in a bizarre manner, cutting off the hand of one of the policemen who attempted to shoot at them.

Sources said that members of the pro-Biafra group hacked the police Armoured Personnel Carriers (APC) driver to death, burnt the second victim alive and stoned the third policeman to death.

They were also said to have burnt over 15 police vehicles, a hospital and an Appeal Court complex located in Oyigbo.
