From AbdulGafar Alabelewe, Kaduna

**P**EOPLE of Damari in Birnin Gwari Local Government Area of Kaduna State have been reported to have fled their community yesterday. This was because hundreds of bandits on motorbikes invaded the village.

According to a source, they (bandits) came on many motorcycles. One bike was carrying the rider and two others. They showed no mercy. They were on a rampage...it was rumoured they came on a revenge mission.

"They were looking for members of the group Malam Abba, a very wicked and dangerous bandit leader.

The Kaduna State Police Command in 2020, said they are a terrorist group, members of Boko Haram.

"The killers attacked the village yesterday. They were shooting. The villagers ran away in different directions.

"Last Friday, many bandits died when the boys of Malam Abba fought members of another gang. Those who came to Damari this morning (yesterday) were on a reprisal mission. They were told that Damari and its environs were under the authority of Malam Abba."
