AT least two people have been killed in an attack in Riyom Local Government Area of Plateau State.

This incident occurred days after assailants killed at least six people in separate attacks in some communities in Riyom.

The Youth Leader, Riyom ward, Dalyop Ezekiel, who reacted to the latest invasion, said it was concerning. He appealed to the government and security agencies to fish out and bring the criminals to justice.

Chairman, Riyom Local

Government Council, Mafeng Gwallson, said he was saddened by the rising wave of killings across communities in the Local Government Area by people who are bent on creating crisis among residents.

He called on security agencies to take action and arrest the ugly situation.

The Chairman who was represented at the burial by his Deputy, Elisha Yakubu, later paid condolence visits to bereaved families.
