

## Robbers kill 3 in Imo communities

**S**USPECTED armed robbers have unleashed terror on two Imo communities, Orogwe and Ndegwu, both in Owerri West Local Government Area (LGA), killing three youths in a single raid on Tuesday night.

Sources from the affected communities said the robbers stormed the areas on Tuesday on two motorcycles carrying two gang members each.

"They first robbed a guesthouse at Umuezu Ndegwu. They ordered all the guests to lie on the floor before forcefully dispossessing them of their cash and valuables.

From Chris Njoku, Owerri

"Unfortunately, the robbers shot a guest when he allegedly refused to lie down like others while a sex worker who attempted to jump over a high fence of the guesthouse got herself wounded, breaking one of her legs in the process," a source said.

The hoodlums were said to have further moved to Orogwe Market junction the same night at about 8pm where they also shot and killed two youths after dispossessing them of their phones and other valuables.
