

Generator fumes kill three in Delta

Elo Edremoda, Warri May 11, 2024

Residents of Osubi community in Okpe council area of Delta State were thrown into mourning on Wednesday, following report of the death of three teenage boys who left a generator on in their single room apartment overnight.

The deceased teenagers identified simply as Isaac, Alex and Ese, were believed to have died from inhaling fumes of the generator after sleeping off.

The mother of one of the deceased boys is said to manage a restaurant in the area.

A resident who spoke on the incident said the boys put the generator inside the room over fear of thieves stealing it, adding that the room had no windows.

The Delta State Police Public Relations Officer (PPRO), SP Bright Edafe, was yet to respond to a message seeking his comments on the incident at press time yesterday.
