

Another body found at collapsed mosque site

By Sofiyyah Abubakar and Sahadat Jimoh

RESIDENTS yesterday found another body at the Masjid Mut-moinah Mosque which collapsed on Sunday in Papa Ajao, Mushin, Lagos.

It would be recalled that the Lagos State Emergency Management Authority (LASEMA) on Sunday night declared an end to the rescue operation.

LASEMA said the mosque has been levelled to ground zero.

However, four days later, another body recognised as that of 'Dongo' was found in the rubble.

The community decided to keep digging after checking the hospitals where the survivors were taken to and realised that the man was still missing.

They were sure that he was part of those who prayed in the mosque before the building collapsed.

Chairman of the mosque, Qazeem Keshinro, said they were not convinced about LASEMA's claim that no one was still under the rubble.
